Feedback Survey (6/7)

How could this session be improved in future?

0 0 4

- Less text on the slides and more images and detail of timber frame construction would be good.
- Worked very well, not sure what to say on this. More time perhaps.
- No suggestions. The session was very good.
- N/A

Feedback Survey (7/7)

Are there any other comments you would like to add?

0 0 3

- I would prefer the CPD sessions to remain on Fridays at noon as it enables me to attend these sessions during my lunch break. If they moved to 4pm on any day then I likely would be no longer able to attend.
- No. Keep up the good work.
- Great to see the Welsh Government take the lead. The construction industry will not achieve carbon neutral unless forced to do so as unfortunately cost is always the determining factor. Unless forced through legislation, the industry will not change!
